

**ELEMENTS OF ACCESSIBILITY:**

1. DESIGNATED ACCESSIBLE PARKING (LESS THAN 4% SLOPE)
2. ACCESS FROM THE ACCESSIBLE PARKING TO THE BUILDING
3. ACCESS INTO THE BUILDING
4. ACCESS TO THE PRIMARY FUNCTIONS WITHIN THE BUILDING (THE WORSHIP SPACE)
5. PROVISION OF AN ACCESSIBLE TOILET ROOM ON THE ACCESSIBLE LEVEL

**LAND DEVELOPMENT ISSUES:**

THE RED DASHED LINE SHOWS THE BUILDING RESTRICTION LINES. ADDITIONS LOCATED WITHIN THESE BOUNDARIES DO NOT REQUIRE A VARIANCE. AN ADDITION MAY BE BUILT IN LINE WITH THE BUILDING IN THE SIDE YARD (SEE LONGER RED DASHED LINE ABOVE) AS LONG AS IT DOES NOT ENCR OACH ANY FURTHER INTO THE SIDE YARD THAN THE BUILDING ALREADY DOES AND AS LONG AS IT DOES NOT ENCR OACH INTO THE FRONT OR REAR YARD SETBACKS.
